

Smart WiFi Door Sensor/Window Sensor

This smart Wi-Fi door and window sensor monitors the state of itself. When door & window is opened or closed, its battery is in low voltage or the case is removed from the base, alarm notification will be sent to your phone. You can view the state of the sensor remotely on your APP. It can also realize intelligent linkage with other smart devices, like power socket, light switch, etc.

Features:

- * Compatible with Tuya, Amazon Alexa, Google Assistant, IFTTT
- * Realize linkage function with other smart home items
- * Tamper alarm and low battery alarm through App
- * Remote monitoring door/window status and push notification

Specification:
