

DB110

tuya

Tuya WiFi Door Bell and Alarm Hub for Smart Home

DB110 is a set of modern and stylish WiFi door bell with 58 melodies selection, 5 adjustable volume levels and backlight ring. It can be expanded with multiple receivers and be set independent ring tones for each transmitter. By adopting high frequency transmission technology, the penetration distance can reach 80m. Related transmitter is embedded with CR2032 lithium battery with 5 years standby lifetime.

DB110 can also work as a WiFi alarm hub that supports connecting up to 100 wireless sensors and 10 remote tags through RF433 wireless technology. The connection and operation is very simple. You can control the whole system from Tuya Smart App remotely from anywhere anytime. If any problem occurs, such as door or window opens & closes or someone visits, you will be notified immediately from cellphone.

The alarm hub is embedded with backup battery for up to 5 hours' operation during emergency. Besides, it in-built with dismantle alarm.

Features:

Tuya Smart Compatible

Power-off Memory

Wireless Connection

Dismantle Alarm Design

58 Ringtones

Adjustable Volume Level

Durable Lifespan

Cellphone Remote Controlling

Specification:

Doorbell(Alarm Hub)

Power Supply	110V/220V AC
Backup Battery	3.7V, 300mAh Lithium Battery
Consumption	<100mA@norma
Radio Frequency	433Mhz
WiFi	IEEE802.11b/g/n
Selectable Melodies	58
Volume Levels	5(includes mute)
Sound Level(typical)	85dBA
Expandable	up to 100 doorbell buttons/sensors and 10 remote tags
Operation Temperature	-10~55°C
App Suggested	Tuya Smart (Android & iOS)

Doorbell Button

Power Supply	DC 3V (CR2032 Lithium Battery x1)
Standby Current	<5uA
Transmitting Distance:	<80m (Without obstacles and no Interference)
Radio Frequency	433Mhz
Operation Temperature	-10~55°C
