

R386 Series

Waterproof Wiegand Reader
For Access Control System

Description

R386 series RFID wiegand readers are made of metal material fully. The modern case is compact and elegant. With IP67 waterproof design, the readers could be applied into complicated outdoor environment. Related mechanical keyboards are scratch-proof and easy to clean.

The readers are embedded with advanced micro processor, with strong performance on anti-metal interference.

Specifications:

Case Material	Metal
Frequency	R386E: 125KHz R386M: 13.56MHz
13.56Mhz Protocols	ISO/IEC1443A, ISO/IEC1443B
Reading Distance	3.5-5CM
Responding Speed	<120ms
Wiegand Output	WG 34(Default), WG 26, WG 66
Operating Temperature	-10 °C to 60 °C
Storage Temperature	-20 °C to 80 °C
Operating Humidity	-20% to 90%
Power Supply	DC 12V (± 5%)
Working Current	30mA-180mA
Dimension	120mm * 80mm * 22mm
LED Indicator	Yes
Cable Outputs	VCC, GND, D0, D1, WG26/34/66, Beep, Bell
Application	Access Control, Time Attendance, POS, Patrol System, Anti-theft System, etc
