# SILENT ANTI RECORDING

AJB-331/AJB-332/AJB-336/AJS-333/AJ-315W/AJ-316D/AJ-301C

# Ultrasonic Audio Jammer Box

Single Cellphone Protection

# AJB-331

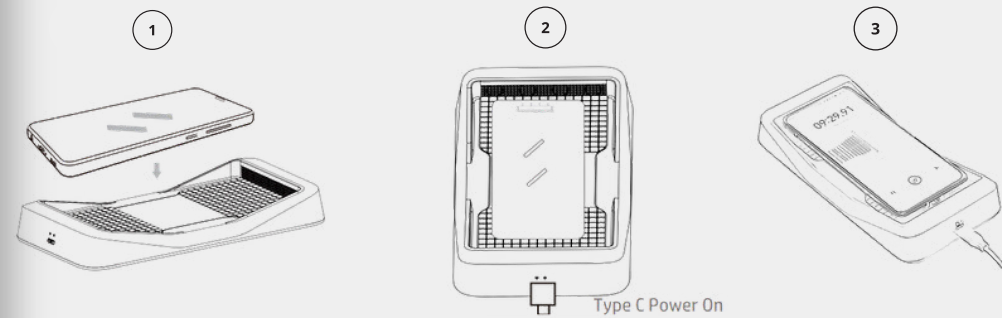

Wireless Charging Technology

Hybrid Interference Patented Technology

## How to use it: Simple 3-Step Setup

## Who may need AJB-331?

-  Corporate C-Suite & Board of Directors
-  Government, Military & Intelligence Agencies
-  Top-tier Law Firms & Financial Advisors
-  High-Tech Research & Development Centers
-  High-Net-Worth Individual & VIP Clubs

# AJB-331

## Ultrasonic Audio Jammer Box

AJB-331 Audio Jammer Box adopts Advanced Ultrasonic Mixing Technology, which can block cellphone eavesdropping seamlessly and silently without causing any disturbance. It reaches 100% jamming performance on all Android phone and iPhones within the box.

## Specification

Parameters	Technique Index
Model	AJB-331
Jamming Method	Ultrasonic Mixing Technology
Wireless Charging	15W Max.
Power Consumption	<25W
Power Input	DC 12V3A(Type C)
Working Temperature	-10°C~ 45°C
Weight	219 g
Dimension	214mm x 108mm x 30.5 mm
Packing Box Size	240mm x 138mm x 66 mm

## Features

© 100% Protection

Embedded with self-developed Ultrasonic Mixer, it can jam the recording function of all iPhone and Android phone.

© Safe & Silent Jamming

Adopts Ultrasonic Mixing Technology, no audible noise or electromagnetic radiation. Only block recording, harmless on cellphone hardware.

© Wireless Charging

Supports cellphone wireless charging at Max. 15W and Adopts high-end SoC charging control chip and heat dissipation design

© LED Indicator

Cellphone Layout Status/Jamming Status  
Wireless Charging Status

## Applications

This device is suitable for all scenarios where you want to block cellphone positive recording or passive recording through eavesdropping apps.

# Ultrasonic Audio Jammer Box

Secures up to 2 Cellphones

## AJB-332

Built-in Battery for **8+** Hours

**100%** Jamming Effectiveness

### How to use it: Simple 3-Step Setup

## Specification

Parameters	Technique Index
Model	AJB-332
Jamming Method	Ultrasonic Mixing Technology
Charging Time	≤ 2.5 Hours
Battery Working Period	≥ 8 Hours
Power Supply	DC 12V3A(Type C) Adapter & Battery
Working Temperature	-20°C~ 45°C
Net Weight	1.3kg
Dimension	249.5mm x 199.5mm x 47 mm
Packing Box Size	390mm x 270mm x 105 mm

## Feature

### © 100% Jamming Effectiveness

It is compatible with all Android phones and iPhones. Inside the box, it achieves 100% jamming effectiveness.

### © Multi-Device Protection

Supports simultaneous jamming for 2 cellphones, ensuring high efficiency shielding.

### © Long Battery Life

It can work continuously for 8 hours, meeting the needs of long-duration shielding requirements.

### © Safe & Silent

Advanced ultrasonic mixing technology effectively blocks recording silently without any audible noise.

## Applications:

The AJB-332 audio jammer box is suitable for all scenarios where you want to block cellphone positive recording or passive recording through eavesdropping apps. It is typically suitable for Government Officers, Politicians, High-End Company Leaders, VIPs, etc.

## Portable Audio Jammer Box

Secures up to 4 Cellphones

# AJB-336

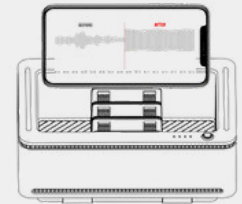

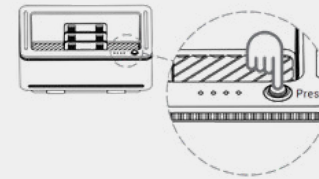

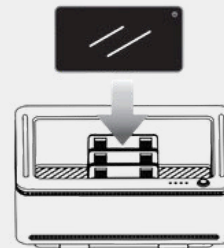

Built-in Battery for 4+ Hours

100% Jamming Effectiveness

### How to use it: Simple 3-Step Setup

### Who may need AJB-336?

-  Corporate C-Suite & Board of Directors
-  Government, Military & Intelligence Agencies
-  Top-tier Law Firms & Financial Advisors
-  High-Tech Research & Development Centers
-  High-Net-Worth Individual & VIP Clubs

# AJB-336

## Cellphone Audio Jammer Box with 4 Slots

AJB-336 adopts ultrasonic mixing technology combined with professional structural design. By placing cellphones in the shielding slots, it can completely block cellphone voice recording and eavesdropping apps safely & silently. The audio recorded by the cellphone is completely covered by the ultrasonic noise so cannot be recorded normally. Audio file cannot be restored after recording.

### Specification

Parameters	Technique Index
Model	AJB-336
Jamming Method	Ultrasonic Mixing Technology
Compatible Phones	All kinds of cell phones including iPhones and Android phones
Shielding Performance	100% Effectively Shielding within the Jammer Box
Capacity	4 Slots
Supported Cellphone Size	≤170mm x 70mm x 16mm
Indicators	Jamming active
Battery	6800mAh (3.7V)
Battery Working Time	≥ 4 hours
Dimensions	170mm x 82mm x 44mm

### Features

- © Recording Shielding Function: By adopting our advanced Wave Shield™ ultrasonic mixer, it effectively blocks the recording functions of all Android phones and iPhones within the box.
- © Centralized Placement: Can block the recording of 4 mobile phones at the same time, significantly improving the efficiency of meeting communication.
- © Safe and Silent: Our advanced ultrasonic technology & jamming algorithm ensure no audible noise during jamming period. Ultrasonic wave is safe and it effectively blocks the recording function without causing interference or damage to the mobile phone itself.
- © Flexible Mobility: Built-in 6800mAh large-capacity battery, ultra-long battery life, can be flexibly moved and placed anywhere conveniently.

### Applications:

Business Meetings, Legal Consultations, Business Conversation etc. Protect your creative discussions, from movie scripts to game development plans, from being leaked before their time.

# Speaker Camouflage Audio Jammer

Plays Music & Jams Unauthorized Recording

## AJS-333

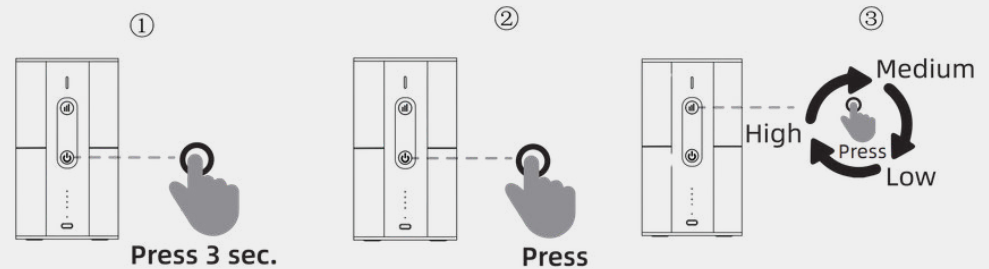

270° Jamming Angle

BL Speaker & Remote Control

### How to use it: Simple 3-Step Setup

### Who may need AJS-333?

-  Corporate C-Suite & Board of Directors
-  Ombudsman & Public Complaint Offices
-  Top-tier Law Firms & Financial Advisors
-  High-Tech Research & Development Centers
-  High-Net-Worth Individual & VIP Clubs

# AJS-333

## Audio Jammer & Bluetooth Speaker

AJS-333 is a camouflage ultrasonic Audio Jammer with Bluetooth Speaker function. By adopting self-developed Ultrasonic Mixer, it can effectively block different voice recording devices, safely and silently. With built-in battery, it is convenient to place it on a suitable area according to your requirement.

[www.isecus.com](http://www.isecus.com)

### Specification

Parameters	Technique Index
Model	AJS-333
Jamming Method	Ultrasonic Mixing Technology
Jamming Distance	>1.5 Meters (Towards microphone)
Jamming Angle	270° (3 Sides)
Compatible Devices	Most of cell phones including iPhone, Android phones, Recording Pen
Dimensions	168mm x 94mm x 94mm
Indicators	Jamming signal power level, battery capacity
Power Consumption	<20W
Working Voltage	DC 20V
Working temperature	-10°C ~ 45°C
Embedded Battery	6600 mAh Li Battery

### Features

#### ◎ Effective Blocking

Adopts advanced ultrasonic mixer, can effectively block voice recording devices such as cellphone, digital voice recording pen. High/Middle/Low frequency is adjustable.

#### ◎ Safe & Silent

Using ultrasonic microphone jamming technology, no audible voice nor electronic radiation. It is safe and silent with good blocking performance.

#### ◎ Portable

Embedded with 6600mAh Li battery, it supports over 2hours continuous working. Can be used as a Bluetooth speaker, playing music while jamming the recording.

#### ◎ Secret Activation

Easy to turn it on through remote controller silently.

### Applications:

AJS-333 is portable in discreet design, can be applied to any communication scenario that requires speech protection.

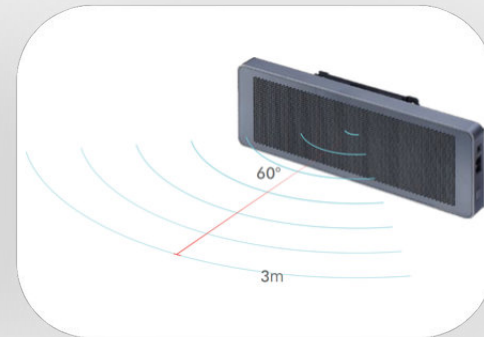

# Silent Anti-recording Solution

for Conference Rooms

## AJ-315W, AJ-316D, AJ-301C

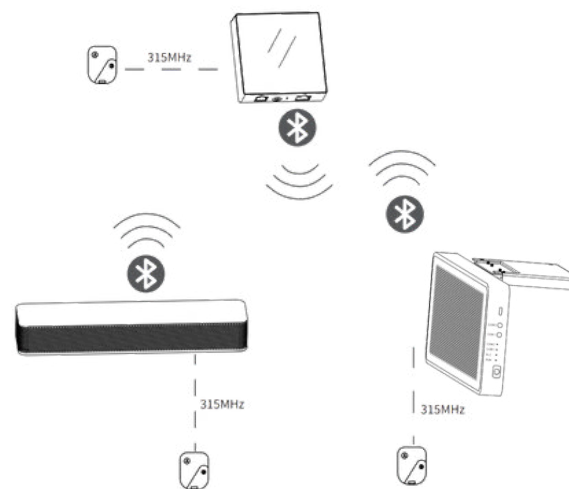

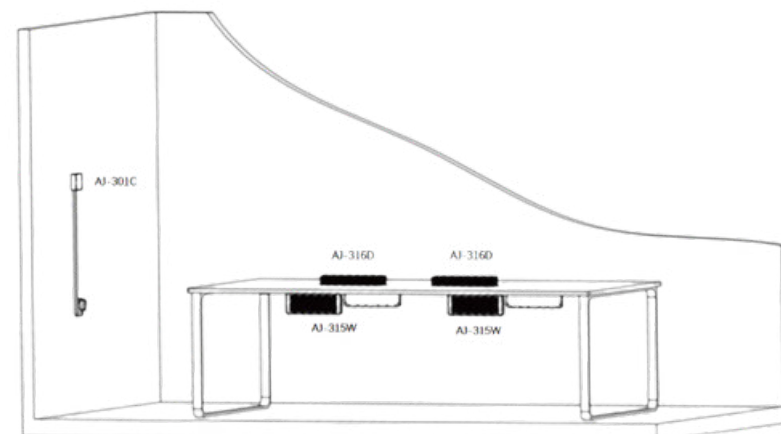

Desktop Deployment

Under-desk Deployment

### WIRELESS CONNECTION & CENTRAL MANAGEMENT

# AJ-315W

## Ultrasonic Audio Jammer for Conference Room

AJ-315W is a top-level ultrasonic audio jammer for conference room to block voice recording. As a silent audio jammer, it is a perfect counter surveillance equipment to prevent eavesdropping during meetings. It supports jamming angle at 60 degree horizontal and 60 degree vertical, reaches over 2m for most of the recording devices, and even over 6m for some devices.

[www.isecus.com](http://www.isecus.com)

## Specification

Parameters	Technique Index
Model	AJ-315W
Application Scenario	Under-desk/Wall Mounting
Jamming Method	Ultrasonic Mixing Technology
Angle of Coverage	Horizontal 60°, vertical 60°
Jamming Radius	2 meters @70dB
Networking Interface	BLE/aux 3.5mm (COM1 and COM2)
Power Consumption	<50W
Power Supply	18V~30V DC adaptor
Working Temperature	-10°C~45°C
Dimensions	354mm x 127mm x 26.2mm
Net Weight	1445g

## Features

### © Effective Blocking

Adopts advanced ultrasonic mixer, can effectively block voice recording devices such as cellphone, digital voice recording pen.

### © Safe & Silent

Using ultrasonic microphone jamming technology, no audible voice nor electronic radiation. It is safe and silent with good blocking performance.

### © Flexible Deployment

Supports all types of conference rooms and tables with configuration options including desktop, under-desk, or wall-mounted equipment. Control the entire system with a touchscreen-equipped control terminal.

### © Central Management System

Effectively manage equipment across multiple confidential conference rooms through the centralized management system. Max. 32 audio jammers could be monitored and controlled remotely through central control terminal.

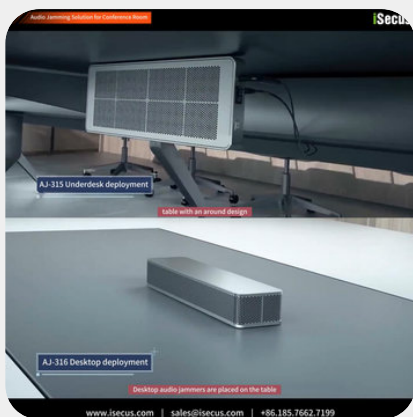

## Applications:

Designed for Conference Rooms: Suitable for various types of conference tables.

# AJ-316D

## Ultrasonic Microphone Jammer

AJ-316D is a top-level ultrasonic microphone jammer for conference room to block voice recording. It can be placed on desktop directly to start working with one click. As a silent microphone audio jammer, it is a perfect tscm equipment to prevent eavesdropping. It supports jamming angle at 360 degree horizontal and 60 degree vertical, reaches over 2m for most of the recording devices, and even over 6m for some devices.

[www.isecus.com](http://www.isecus.com)

## Specification

Parameters	Technique Index
Model	AJ-316D
Application Scenario	Desktop Placement
Jamming Method	Ultrasonic Mixing Technology
Angle Of Coverage	Horizontal 360°, vertical 60°
Jamming Radius	2 meters @70dB
Networking Interface	BLE/aux 3.5mm (COM1 and COM2)
Power Consumption	<45W
Power Supply	18V~30V DC adaptor
Working Temperature	-10°C~45°C
Dimensions	325mmx96mmx64mm
Net Weight	730g

## Features

### © Effective Blocking

Adopts advanced ultrasonic mixer, can effectively block voice recording devices such as cellphone, digital voice recording pen.

### © Safe & Silent

Using ultrasonic microphone jamming technology, no audible voice nor electronic radiation. It is safe and silent with good blocking performance.

### © Flexible Deployment

Supports all types of conference rooms and tables with configuration options including desktop, under-desk, or wall-mounted equipment. Control the entire system with a touchscreen-equipped control terminal.

### © Central Management System

Effectively manage equipment across multiple confidential conference rooms through the centralized management system. Max. 32 audio jammers could be monitored and controlled remotely through central control terminal.

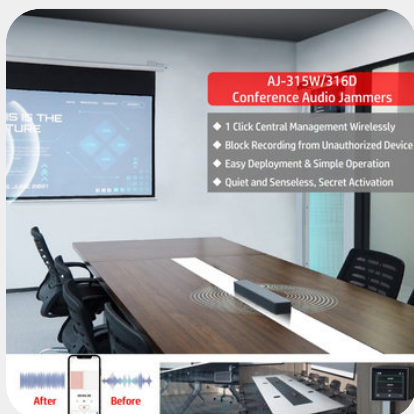

## Applications:

Designed for Conference Rooms: Suitable for various types of conference tables.

# AJ-301C

## Central Controller of Audio Jammer System

AJ-301C is a centralized control terminal engineered for comprehensive management of audio jamming systems in secure conference environments. It provides a single point of control for up to 32pcs audio jammer units, streamlining operations and enhancing security protocols.

### Specification

Parameters	Technique Index
Model	AJ-301C
Application Scenario	Central Control Terminal
Control Panel	Touch screen
Networking Interface	To Jammers: Bluetooth/aux 3.5mm (COM1) To management system: WiFi/Ethernet (Optional)
Capacity	Max. 32 Audio Jammer could be controlled
Functions	Monitor Jammer Status, Adjust Jammer Power Consumption
Power Consumption	<10W
Power Supply	5V DC adaptor
Working Temperature	-10°C~55°C
Dimensions	86mm x 86mm x 22mm
Net Weight	115g

### Features

- ◎ Wired or Wireless Connection  
Can easily connect the controller with audio jammers wired through RS232, or wirelessly through bluetooth.
- ◎ Flexible Deployment  
Supports all types of conference rooms and tables with configuration options including desktop, under-desk, or wall-mounted equipment. Control the entire system with a touchscreen-equipped control terminal.
- ◎ Central Management System  
Effectively manage equipment across multiple confidential conference rooms through the centralized management system. Max. 32 audio jammers could be monitored and controlled remotely through central control terminal.

### Applications:

Specially Designed for Conference Room
